

Smokehoods for SM160, SM260 and SM360

The Cookshack Smartsmoker Smokehood is a small hood incorporating a removable grease filter and an exhaust fan. The smokehood mounts directly on top of the smoker and removes smoke vented during smoke-cooking.

Features

- The smokehood is constructed of heavy 18-gauge polished stainless steel.
- Smoke is directed through a 4" diameter outlet, which can be vented directly outside or under a commercial hood.
- The smoke hood is a good solution for small kitchens, or kitchens with inadequate space in the line.

NOTE: The Cookshack Smartsmoker Smokehood will not exhaust all of the smoke vented while unloading the smoker. (A small amount of excess is to be expected.)

Smokehood Installation Instructions

Items Included:

Smokehood
Mounting hardware
(clamps, self-tapping
Screws, 10/32 x 3/4 bolts)
Filter

Tools Needed:

Phillips Screwdriver
Drill
(SM360, SM160 Hood-5/16" nut driver)

To attach:

1. Position Smokehood on top of the smoker lining up front edges. Center the hood horizontally. Drill holes in the smoker to attach the Smokehood.
2. Fasten the Smokehood using the self-tapping screws into the drilled holes.
3. On the left side of SM160 and SM260, drill holes to attach drain tube. On the back of the SM360, drill holes to attach drain tube. Fasten drain tube using self-tapping screws and clamps. Allow tube to hang 1" below bottom of smoker.
4. Attach fan discharge to an external vent using a standard 4" vent pipe.
5. Place a small container on the floor to catch condensation.

SM160 Smokehood Specifications

Dimensions	20 3/8" W x 19 3/8" H x 7" D
Electrical	120v VAC, 1 amp
Filtering	10 x 16"
Fan	1-speed blower, 75cfm
Outlet	4" diameter
Ship Weight	25 lbs.

SM260 Smokehood Specifications

Dimensions	27" W x 26 3/8" H x 12" D
Electrical	120v VAC, 1 amp
Filtering	12 x 20"
Fan	1-speed blower, 165cfm
Outlet	4" diameter
Ship Weight	85 lbs. by truck

SM360 Smokehood Specifications

Dimensions	39 3/4" W x 33 1/2" H x 12" D
Electrical	120v VAC, 1 amp
Filtering	20 x 16"
Fan	1-speed blower, 265cfm
Outlet	4" diameter
Ship Weight	95 lbs. by truck
